## OUR PRODUCTS AND SERVICES

### Supplier Risk Analysis and Brand Exposure

It is a product intended for the analysis of those suppliers and customers that are considered critical. It provides information and qualification about its economic and financial situation; corporate, shareholders and managers reputation; its fiscal, legal, judicial, commercial and corporate compliance; situation in the financial system and, finally, medium-term projections. The aim is to detect all event or factor that could mean an operational or brand exposure risk.

Additionally, at the request of the contractor, the report may be supplemented with a Management Evaluation.

### Corporate Reputation Report

It is a product intended to provide complete information of commercial counterparts, in order to allow an optimal decision making.

Only public information will be used. No information requirements will be done to the counterpart, in order to guarantee confidentiality. Also records and exposition information are taken into account in the investigation.

## INFORMES COMPLEMENTARIOS

**Contingency Provision Report**, specializes in the recognition and valuation of provisions, contingent liabilities and contingent assets, and sufficient supplementary information is disclosed to enable users to understand the nature, timing of maturity and amounts of contingencies.

**Forensic Audits**, is an audit work focused on the prevention and detection of financial fraud. It can be done in a Preventive Way to provide assessments or advice to different organizations on their ability to deter, prevent, detect and respond to different fraud actions

**Management Evaluation**, Through a visit to the firm in analysis, and in meeting with its managers, evaluate the capacity of management and conduction. In particular, the level of planning, administration, management, control and anticipation of contingencies exercised by management bodies is qualified.

**Negotiation Assistance**, a service through which FORECAST | Risk Management will assist the contractor in the search for alternative solutions for situations that represent a loss of restoration, accumulated debt pressure or financial complications, such as idle capacity, large fixed costs, unmanaged tax credits, between others.

**Specific Financial Reports**, those that are made at the request of the contractor in order to determine financial health of the subject analyzed at the given date, with a score of results.

**Risk Committee - Executive Summary with Consolidated Information and Statisticians of Analyzed Suppliers**, as an additional and complementary product to the analysis of risk of provision and brand exposure, which will be presented to interested members. Also, additional and statistical reports for those suppliers / clients that present high criticality, with corresponding accompaniment of suggestions and action plans recommended for each case.
